DRAGON OF SHANDON 2021

The Dragon of Shandon began in 2006 as a street parade celebration of Samhain and a creative partnership between artists and communities which has taken place annually on the night of October 31st in the heart of Shandon, Cork.

Each year thousands take to the streets of Shandon on Cork's Northside to walk with the Dragon as it travels between worlds in a celebration of the living and the dead, accompanied by an assortment of creatures from the underworld.

The evening parade is the result of an extensive outreach and participatory programme that spans several months of workshops with youth groups, the community and voluntary sector, schools and voluntary participants.
